### SUGGESTED USE

For the effortless removal of glue residues, adhesive tape residues, ink or pencil marks and other impurities from nearly all kinds of plastic surfaces, e.g. ABS, Melamine, PE, PP, PVC etc.

### CHARACTERISTICS

PHYSICAL STATE: Liquid  
COLOUR: Colourless  
SHELF LIFE: At least 2 years, if stored in original container at room

### PROPERTIES

Dries quickly without leaving streaks or film residues on surfaces.  
Possesses a pleasant citrus aroma due to a natural lemon extract.  
Total contents of aromatic substances below 0,01 %

### APPLICATION PROCESS

Apply plastic cleaner generously to an un-dyed cotton cloth and wipe off impurities using light pressure.  
It is recommended to use lint free un-dyed cotton or linen cloths only – cloths made of synthetics or mixed fibres should not be used.  
This type of cleaner is not suitable for use in purifiers.

### HEALTH & SAFETY

Follow the guidelines in the NEY Health & Safety information sheets.

### DISPOSAL INSTRUCTIONS

Recover or recycle if possible.  
Drain container thoroughly. After draining, vent in a safe place away from sparks and fire.  
Disposal should be in accordance with applicable national, regional and local laws.

#### Important:

As most requirements are unique, it is most important that trials are carried out in order that the user satisfies themselves that the adhesive is suitable. The information given on this sheet is for guidance only and does not represent a specification.
