

## R2 Woodscrews Technical Information

# R2 WOODSCREWS

Performance  
Woodscrews  
Consistent  
Quality.  
ALWAYS!

The sharp, wide, deep thread penetrates into all timbers without a pilot hole, giving exceptional pull-out.

Each batch checked thoroughly to guarantee 'consistency of quality'

# REISSER®

### Applications:

- All wood
- Plywood
- Hard wood
- Board materials

1

#### Re-inforced collar

- The re-inforced collar under the head gives additional support preventing snapping
- The collar also allows a wide, deep pozi to be inserted. This reduces the risk of the bit jumping out and rounding off the edges

2

#### Lubricated, sharp, wide, deep thread

- The invisible Reisser lubricant helps the screw drive in quickly and easily

3

#### High Strength

- Specially hardened steel gives the R2 maximum tensile and torsional strength

4

#### Yellow tropicalized

- Yellow tropicalized gives superior rust resistance than a standard BZP screw

5

#### Choice of thread

- Available in full thread (primarily for board materials) or part thread (primarily for pulling two pieces of timber together tight)

6

#### 25° Needle point

- Very sharp 25° point with the thread running to the end allowing immediate starting

### Characteristics:

- Yellow tropicalized
- Countersunk
- Deep pozi drive
- Single/wide thread
