

## 18mm Base and Back Board

Part of NEY's

**eco** range

**The KuBox from NEY is the new slim line drawer that has recently become the trend in kitchens due to its contemporary look.**

The biggest advantage to the manufacturer using KuBox is the board requirement for the base and back being 18mm. Buying extra 16mm board just for drawers or routing 18mm board to 16mm is now a thing of the past.

The KuBox is from the same family as the very popular Starbox, our standard kitchen drawer which also takes 18mm for the base and back.

- Improved soft close mechanism.
- Suitable for an 18mm base and backboard.
- 12mm side thickness.
- White and iron grey finish available. Silver coming soon!!
- 90mm, 128mm and 175mm drawer heights.
- Square gallery rail option for higher drawers.
- 35kg load capacity.
